

WEBSITE REDESIGN PROPOSAL · PREPARED BY TLALE DIGITAL

Mogale City Local Municipality

Before & After

Your municipality, presented at a higher standard. A section-by-section look at how the services residents use most could be presented on mogalecity.gov.za.

IN THIS DOCUMENT

- 01 First impression
- 02 Finding a service
- 03 Accounts and payments
- 04 Service information
- 05 Reporting a fault
- 06 Tenders and quotations
- 07 Political leadership
- 08 News and public notices
- 09 Phone experience

THE CURRENT WEBSITE

THE PROPOSED REDESIGN

The same Municipality, presented with greater clarity.

How to read the comparisons that follow.

This document places the current website and a proposed redesign of mogalecity.gov.za side by side, one public service at a time. It is offered as a respectful proposal: the redesign keeps the Municipality’s coat of arms, motto, photography, contact numbers and published content, and reorganises them around the tasks residents most often come to complete.

Same day, same browser

Both websites were captured on 19 October 2026 in the same browser, at 1440 px on desktop and 390 px on a phone.

Numbered markers

Gold numbers on the redesign screenshot correspond to the numbered points written beneath it.

1 This is a marker. It appears on the redesign screenshots.

Matching sections

Each page compares the equivalent section on both sites. Screenshots are cropped to the section, so they stay large and readable.

Honest labels

The prototype is a concept. Illustrative items are labelled Sample data in the prototype and are listed on the final page. No results are claimed.

CONTENTS

01	First impression	page 3
02	Finding a service	page 4
03	Accounts and payments	page 5
04	Service information	page 6
05	Reporting a fault	page 7
06	Tenders and quotations	page 8
07	Political leadership	page 9
08	News and public notices	page 10
09	Phone experience	page 11

An opening screen that introduces the Municipality.

The coat of arms, full name and motto lead, with search at the centre of the first screen.

WHAT RESIDENTS SEE TODAY

The homepage opens with the Revitalising the Heart of Mogale City campaign banner. Quick Finds and current news follow further down the page.

WHAT THE REDESIGN ADDS

- Official identity first.** The crest, “Mogale City Local Municipality” and “The City of Human Origin” appear together above the fold.
- Search as the main action.** “How may we assist you today?” leads into one search bar, with quick links to statements, the Meter Audit Programme and vacancies.
- Today’s service status.** Water, electricity, refuse, licensing and Call Centre status begin directly below the opening photograph.

FOR THE MUNICIPALITY Residents recognise the official municipal website immediately and can begin a search without scrolling.

The services residents use most, one selection away.

Eight service tiles and the Meter Audit Programme, directly on the homepage.

WHAT RESIDENTS SEE TODAY

Below the campaign banner, Quick Finds offers a search field, followed by the Current News carousel and three featured articles.

WHAT THE REDESIGN ADDS

- Eight named services.** Report a Service Fault, Accounts and Payments, Tenders, Ward Councillors, Social Support, Licensing, Human Settlements and Documents.
- Meter Audit Programme.** The October 2026 billing-accuracy campaign is explained on the homepage, beside the actions it asks residents to take.
- Account actions in place.** Balance enquiry, statement payment through the eMunsoft portal and photo meter-reading submission.

FOR THE MUNICIPALITY the most-requested services are visible by name on the homepage, before any news content.

Account tasks presented as actions, not lists of links.

Balance enquiry, meter readings and payment options on the Accounts page itself.

WHAT RESIDENTS SEE TODAY

The Accounts page groups Opening Accounts, Terminating Services, Payment Options and FAQs as rows of buttons, each leading to a further page.

WHAT THE REDESIGN ADDS

- 1 Account Balance Enquiry.** A single account-number field, with the official statement and payment portal one selection away.
- 2 Submit a Meter Reading.** Water or electricity, a reading and an optional photograph, in support of the Meter Audit Programme.
- 3 Revenue office hours.** Opening hours and satellite-office services appear beneath the forms. Balances returned are illustrative.

FOR THE MUNICIPALITY routine account matters can be completed or started online, reducing simple enquiries to the Call Centre.

Utilities information organised by service.

Refuse collection, environmental offences and service details in one structured view.

WHAT RESIDENTS SEE TODAY

The Utilities page explains electricity supply and lists refuse collection suburbs under weekday tabs, followed by waste and water sections.

WHAT THE REDESIGN ADDS

- 1 Refuse collection by area.** Residents select their area to see the collection day. Schedule shown is sample data pending municipal records.
- 2 Environmental offences.** Illegal dumping and pollution are explained with reference to the by-laws, with a direct reporting action.
- 3 Service cards.** Accounts, Electricity, Water and Sanitation, Licensing and Public Safety, each linked to its full page on mogalecity.gov.za.

FOR THE MUNICIPALITY residents can find the right service information without knowing which department is responsible.

Every report receives a reference number.

Water, electricity, potholes, sewer, illegal dumping and streetlights in one short form.

WHAT RESIDENTS SEE TODAY

Faults are reported by telephone or WhatsApp. The Call Centre, WhatsApp, switchboard, emergency and police numbers are published in the footer of every page.

WHAT THE REDESIGN ADDS

- 1 Six fault types.** Residents choose the fault, the area and the street, and may add a description and photograph.
- 2 A reference number.** Each request is issued a reference such as MC-WTR-20261019-213722, with Logged, Assigned and Resolved stages.
- 3 WhatsApp and tracking.** A pre-filled message to 083 787 2814 and a Track this request page. Submission is demonstrated only.

FOR THE MUNICIPALITY each report can be followed up by reference, by residents and by officials alike.

Open tenders with closing dates and requirements.

Supply Chain Management information ordered by what bidders need first.

SAMPLE DATA

Council Meetings

Reconvened 52nd Special Council Meeting

Open to the public in accordance with Section 20 of the Local Government: Municipal Systems

WHAT THE REDESIGN ADDS

- Vision, mission and values.** Presented as three concise panels above the leadership.
- Leadership in one row.** Official portraits, office, name, telephone and email for each office-bearer, with a link to the Mayoral Committee.
- Ward councillor search.** Search by suburb, with Council meeting notices alongside. Ward matches are sample data.

FOR THE MUNICIPALITY residents can identify and contact the correct representative in one view.

RAHAEL TLALE / TLALE DIGITAL

MOGALE CITY LOCAL MUNICIPALITY · WEBSITE REDESIGN · BEFORE & AFTER

09 / 12

A clear hierarchy for official communication.

Statements, vacancies and notices, each opening the published article.

WHAT RESIDENTS SEE TODAY

The News page presents articles in a uniform three-column text grid with titles, dates and excerpts.

WHAT THE REDESIGN ADDS

- 1 Filter by type.** All, Latest News, News and Tourism, so residents can narrow the list.
- 2 Photographs and dates.** Each article carries an official photograph, category and date, and opens its article on mogalecity.gov.za.
- 3 Public Notices column.** Public comment, valuation, water and Council notices are kept separate from news.

FOR THE MUNICIPALITY statutory notices and calls for public comment are easy to find and are not lost among news items.

On a phone, the essential actions stay in reach.

Most residents reach municipal services from a phone. Captured at a standard 390 px width.

THE CURRENT WEBSITE · 390 PX PHONE

HOMEPAGE

ACCOUNTS

WHAT RESIDENTS SEE TODAY

The phone layout stacks Quick Finds, a search field and section buttons; services appear after several screens of scrolling.

THE PROPOSED REDESIGN · 390 PX PHONE

HOMEPAGE

FAULT REFERENCE

WHAT THE REDESIGN ADDS

- Fixed action bar.** Report, Pay, WhatsApp and Call stay at the bottom of every page.
- Crest and search first.** The opening screen carries the same official identity as the desktop site.
- Reporting on a phone.** The fault form and reference number work fully at phone width.

FOR THE MUNICIPALITY the four most-used actions are always one tap away on a phone.

AN INVITATION

We would welcome the opportunity to present the proposed redesign to the Municipality.

The same Municipality, its services and its people, presented with greater clarity for every resident. The prototype can be explored on a computer or phone ahead of a meeting.

INTERACTIVE PROTOTYPE

PROPOSAL NOTES: PLACEHOLDERS AND UNFINISHED FEATURES

- The coat of arms, photographs, leadership portraits, contact numbers, tender references and news items are taken from mogalecity.gov.za. Official links in the prototype open their published destinations; the unpublished supplier guide is marked Not yet available.
- Items marked Sample data are illustrative: daily service status, account balance results, ward-to-suburb matches, refuse collection days, Council meeting schedules and the progress shown by the request tracker.
- The Executive Mayor’s message on the homepage is placeholder wording pending an approved statement from his office.
- Service requests, meter readings and newsletter subscriptions are demonstrations: nothing is transmitted or stored, and there is no connection to the Municipality’s billing or case systems. The WhatsApp option opens a pre-filled message to 083 787 2814.
- All screenshots were captured on 19 October 2026. No performance, usage or commercial results are claimed.
